Just Follow These Step-by-Step Instructions

- Load MongoDB Compass and Sign On
- Click on the twitter Database
- Click on instructor_test_group
- Notice the Query Bar at the Top of the Page
- Click on Schema then Choose Analyze Schema
- Scroll Down to source then hover over the bar that says “Instagram”
- Click that Bar Turning it Orange
- The Query Bar Now Contains Your Query for Searching
 - this is called a “Graphical Query”

Simple Instructions Continued...

- Hit “Analyze”
- Hover Over the Map
- Shift + Drag to Build Query
 - this lets you drill down
- Create a Circle Around the Area of Interest
- Hit “Analyze”
- The Data for Your Geographic Area are Displayed
- Manipulate the Target with the Red Handle and Hit “Analyze” to Change Your Focus
